Order and format of variables

Variable	Format
PA	F10.3
PA&1	F10.3
HRS	F10.3
_NEWTIME	F10.3
TIME	F10.3
ID	I4

- HRS: Original hours variable

- _NEWTIME: Midpoints of time ranges implied by TINTERVAL (only used in the Time interval plot)

- TIME: Name given by user to the time variable created by TINTERVAL = hrs(2 time) and used in the analysis (same as bin number). If name not given by user, the default name is _BINT
