

Student License Agreement Supplement To the Mplus Single-User License Agreement

This is a supplement to the Mplus Single-User License Agreement for Student Licenses. When contradictory, this supplement supersedes the Mplus Single-User License Agreement.

This is to verify that I am currently a student who has not yet obtained a Ph.D., M.D., or any other advanced degree beyond a Master's degree. I agree to the following regarding the Mplus Single-User Student License that I am purchasing:

1. I will use this license only for my own personal.
2. I will not use this license for any research connected to employment.
3. I will not allow anyone else to use this license.
4. I understand that this license is not transferable.
5. I understand that I can renew the upgrade and support contract for this license only three years with proof of current student status.
6. I understand that if I do not renew my upgrade and support contract but choose to renew at a later time, I will need to pay the prorated fees for the time that lapsed even if the cost is more than that of a new student license.
7. I understand that I can purchase only one student license.
8. I understand that a student license purchase, upgrade and support purchases, and add-on purchases must be paid for by my own personal payment method.
9. I understand that all student orders must be accompanied by recent proof of student status showing that I am currently enrolled in classes.
10. I understand that my student license cannot be converted or upgraded to a regular license when I am no longer a student.
11. I understand that if the license is shared or misused in anyway, it will be immediately voided and I will not receive a refund.
